

Nebraska Minority Public Health Association

The Nebraska Minority Public Health Association (NeMPHA) was formed as an outcome of the 1997 Minority Health Conference as a not-for-profit corporation committed to providing leadership that results in a better quality of life for racial/ethnic minorities in Nebraska. To achieve its mission, the NeMPHA works towards the following goals:

Advocacy - To advocate for and solicit funding for the development of effective health promotion and risk reduction strategies and services/programs for racially and ethnically diverse communities.

Empowerment - To empower Nebraska's racial/ethnic minority communities by strengthening indigenous leadership by ensuring representation in the membership and committees of the Association; sponsoring workshops, forums and conferences; conducting briefing sessions with public officials and the media; and providing technical assistance to providers in their efforts to develop and achieve their goals and conduct fund raising.

Membership in the NeMPHA is open to any person interested in advocating for the health of racial/ethnic minority communities, such as but not limited to, physicians, dentists, nurses, dieticians, health planners, administrators, health educators, environmentalists, legislators, health researchers, teachers, students, and consumer advocates.
